FROM THE PRINCIPAL'S DESK

"Intelligence plus character that is the goal of true education."

– Martin Luther King Jr.

We at AECS Kakrapar, with unaltered determination and hard work, have accomplished one more year with the desire to do the best for the students. The school has achieved significant milestones in its quest for excellence in academic and non-academic areas. We have made confident strides this year in our march towards holistic development of the students by kindling their diverse talents. The watchword of the school is excellence – a quality that is the core of all the activities. We have tried our best to make our mode of education more responsive to the needs of the students and provide them all round development.

Our school is where the students receive training for life. Here, effective, meaningful and joyful learning takes place. It is here that we begin our lessons of life, to accept challenges, face competition, rejoice at triumph and face defeat with dignity. In today's vibrant world, all round development and grooming is of supreme importance and in our school, we create an environment for the growth of balanced future citizens of our country.

I applaud the perseverance of the teachers for giving their best and in bringing out the best in each student. In the pursuit of excellence, I am indebted to our patron and the parents for supporting the school in every aspect.

"Learning is a treasure that will follow its owner everywhere." says the Chinese Proverb. I persuade the students to be inquisitive learners. What is learnt in school will positively transform the life of the students. Education is a life long process, the knowledge acquired will make a student an excellent human being and that is our motto.
